

CLASH IMMINENT OVER EVERGLADES; MCABE TO REPLY

Crisis Expected Tuesday,
When Solicitor Appears
Before Committee.

The issue between the Department of Agriculture and Congressman Frank Clark over the Florida Everglades controversy will be sharply drawn tomorrow, when Solicitor McCabe, of the department, appears before the House investigating committee to insert in the record an answer to Mr. Clark's charges.

It is not the intention of the committee to begin the actual investigation of the alleged Everglades scandal until Tuesday, but the committee has decided to preface the hearings with the detailed charges of the Florida Congressman, and the full answer of the department.

It promises to be a bitter fight between the aggressive Florida Democrat and the venerable Secretary Wilson. Mr. Clark has started his colleagues in the House by challenging the Secretary to disprove the allegations that the department has lent itself to the exploitation of Florida lands by suppressing reports unfavorable to the "land sharks."

The Florida member declares he will prove by reputable witnesses that Secretary Wilson admitted the suppression of a circular report, and that the action of the department was predicated on the importunities of land promoters. Solicitor McCabe, accusing Mr. Clark of making a "prejudiced, one-sided statement," declares the department is willing to come before the House committee and show that its records are clean.

Chairman Moss, of the investigating committee, said today no attempt would be made to cross-examine Mr. McCabe when he appears before the committee tomorrow, but that Mr. McCabe's statement would be made merely to join the issue between the department and Mr. Clark.

Chairman Moss states his committee will probe the entire drainage bureau of the Department of Agriculture and the cost of its investigations of the drainage of the Florida Everglades. Mr. Moss today called upon the department for a list of all the employees on this work, together with an analysis of the amount expended in getting up the report, which is alleged to have been suppressed.

Incidentally, the committee will inquire into the reasons for the sudden dismissal of Engineers Elliott and Morehouse. Mr. Clark charges these dismissals came because of influence brought upon the department by Florida land promoters.

The House committee has subpoenaed J. O. Wright, former drainage engineer of the department, who is now chief engineer for the State of Florida. Mr. Wright will take the stand next Tuesday, after A. Zappone, chief accountant of the department, has explained the expenditures of the drainage bureau.

Henry E. Davis, of this city, has been engaged as counsel by Wright and Morehouse, and the fight will be a three-cornered one, with the Department of Agriculture qualifying as the defense.

The investigation, it is believed, will throw new light on the credibility of the American buying public. Mr. Clark charges that millions of dollars have been paid for Florida lands that are nine and twelve feet under water.

ICE JAM DELAYS COLLIER BEARING RELICS OF MAINE

Leonidas Already More Than
Thirty Hours Late at
Navy Yard.

The collier Leonidas, which left Annapolis at noon on Wednesday for the Navy Yard in this city, bearing relics of the battleship Maine, is tied up somewhere in the ice jam in Chesapeake bay or in the river.

Nothing has been heard of the Leonidas since the collier's departure from Annapolis. Commander Watts said today that while no word had been received of the collier, no fear is felt. It is believed the ice jams in the bay and in the river are responsible for the delay of more than thirty hours.

The fact that the boat is more than a day overdue is only what might be expected under the prevailing conditions. The Leonidas has aboard the big steel mainmast taken from the wreckage of the Maine, and which is to be erected at Arlington over the graves of the victims of the Havana harbor disaster.

HOW TO DESTROY THE DANDRUFF GERM

BY A SPECIALIST.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of an agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you. 5 ounces Bay Rum, 2 ounces Lavender de Composee, one-half ounce Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its natural color.

CAUTION: Do not apply where hair is not desired and be sure to avoid tonics containing poisonous wood alcohol. Before publication we presented this prescription to People's Pharmacy and O'Donnell's, this city, and they state that they have filled it many times for their patrons who report most astonishing results from its use.

MERCURY TO STOP AT TEN ABOVE ZERO IN CAPITAL TONIGHT

Weather Bureau Sees No
Change From Last
Few Days.

No change in the uniform temperature of the last three or four days, which, during the night has dropped to ten or twelve degrees above zero, and during the day has arisen to about thirty-five, is expected during the next twenty-four hours. The mercury is scheduled to drop as low as ten degrees above zero tonight. This information was sent out today by the Weather Bureau.

Because of the uniform temperature, the city has suffered but little from the cold. Void of any strong cold winds, such as generally prevail in Washington during this season of the year, the climate is not what might be considered uncomfortable. Pale tonight, with unsettled weather for tomorrow, which will be moderately cold, is what the Weather Bureau predicts for the next twenty-four hours. The lowest temperature tonight will be about ten degrees.

PAWNSHOPS BEING SEARCHED IN HUNT FOR SCHOOL BOOKS

Police Active in Effort to
Trace Robberies at
High Schools.

Careful inspection of pawnshops is being made by the police in the search for articles alleged to have been stolen from the high schools. Books have been missing at various schools, and at this time of the year, when new books and instruments are purchased, a close watch is kept on the pawn shops.

Stealing in the high schools has made the Police Department doubly watchful of everything that finds its way to the pawnshops. The wholesale taking of books at the McKinley Manual Training School, just before the end of the semester, put the police on guard. Nothing has been reported found to Harry O. Hine, secretary of the Board of Education, nor have the principals of the high schools been notified any of the missing books have been located.

Marines Withdrawn From Honduran Soil

American marines landed in Honduras from the gunboat Petrel by Commander Dismukes to protect an American railway from the rebels, were withdrawn today, according to State Department dispatches.

The Honduran government was warned by Secretary Knox, through the American consul, that no deprecation upon American property will be tolerated. The Petrel will remain in Honduras to enforce this order.

Following a hearing given the applicant, the Excise Board today rejected the application of E. E. Magruder for a retail liquor license at 472 Pennsylvania avenue northwest. The opinion was expressed by the board that there are already a sufficient number of saloons in that neighborhood.

Protest against the granting of the license was made by the American League, represented by Attorney A. E. Shoemaker.

LOCAL MENTION

Vital to Health, Life, and Comfort. The wonderful "Broom" and "Venture" ventilators bring in fresh and exhaust foul, poisonous air. Call at the office of The Moore Co., 1320 N. Y. ave., and see them in action.

The Wonderful Arnold Vibrator

The Greatest Vitalizer, Beautifier and
Health Builder of the Twentieth Century
FOR MAN OR WOMAN

Its use is pleasant, mild, and invigorating—its good results quick and permanent—priced low and requires no skill or special knowledge to operate.

The wonderful results accomplished right here in this city through the use of the Arnold Massage Vibrator as a producer of comeliness and robust health, its accomplishments are positively remarkable and its boast of unusual cures in long standing cases of chronic ills is paralleled only by the marked improvement that results when it is employed as a beautifier.

There is no secret process—it is massage pure and simple—but remarkable massage.

Ten thousand "friction rubs" a minute—think of that—and you'll not wonder at its efficient force as a producer of beauty and health.

Let the Arnold Vibrator Beautify You

By its use your skin will become like satin, clear, soft, and smooth—

It will round out those sunken hollows in your neck—develop the thin muscles—add poise to your mien—

Sallow complexion and unhealthy skin will become full colored with the glow of health—

Double chins and baggy cheeks will vanish—

It will rub away the frowns and furrows of "dull care" and the crow's feet and wrinkles of age—

Excess fat will disappear and normal roundness will take its place—

In short, there's no end to good the Arnold Vibrator will bring to you, and best of all—health improvement will keep pace with the improvement in appearance.

Let the Arnold Vibrator Make You Healthy

It will quickly relieve headaches, pains, stiffness, muscular soreness, and cramps.

Rheumatism is its "specialty"—and the almost instant relief will be found remarkable.

Congestion of every nature causing chronic bowel troubles, kidney ills, disordered liver, and stomach conditions will be thoroughly effaced.

It will accelerate the circulation and build up the blood and bodily organs by the mildest and most natural means and will reduce unhealthy fat or build up abnormal thinness with equal certainty and ease.

Attend the Demonstration Now Going On

Come in—experience the actual, personal test of this wonderful modern curative and beautifying appliance—learn at first hand of the blessings of comfort and health it has in store for you—test every claim we make for it and judge for yourself if it is not.

Greater Than Medicine—Better Than Exercise
